

RIPARIAN AREA MAPPING DATA FORM

Directions:

Use this space to make a map of the part of the stream that you think is important (imagine the stream from a “bird’s-eye-view”).

Be sure to map both the aquatic and riparian zones.

Draw in all the features you think are important.

RIPARIAN AREA MAPPING DATA FORM

Pick a place along the stream that you particularly like. Draw a profile of this place. Include the near bank, stream, and opposite bank in your drawing. If you aren't sure how to do this, ask your adult group leader. Show the water level in your drawing. Now, draw in features of the riparian zone that you think are important to salmon.
