

RIPARIAN SCAVENGER HUNT

You will have 15 minutes to find or answer as many of the following things as possible. Draw or describe what you find that fits each category.

- Find 3 different types of cover that help protect fish from predators
- How many different kinds of evergreen trees are there in this area?
- How many kinds of berries can you find? (do not eat them!)
- Find three different kinds of seeds or cones.
- Is there an eroded stream bank in the area? If so, what do you think caused the erosion?
- Find three types of wildflowers
- Where do you find lichens in this area?
- Find a sword fern
- Is there any evidence that beavers use this area? If so, what is it?
- Find an insect that lives on the ground and an insect flying in the air
- Find an insect on the bark of a tree or on a leaf
- Find three different types of evidence that birds occur in the area.
